- Benefits are subject to the following:
 - ✓ Pre-authorisation
 - ✓ Bestmed guidelines
 - ✓ Bestmed protocols
 - Below medicines are first line treatment. Second line medicines not listed, would be considered if clinical funding criteria is met as per protocol – without penalties.
 - Mediscor Reference Price (MRP) This price represents the reasonable price in the market place for a particular group of generic equivalent medicines which is reviewed and updated regularly. MRP sets a maximum reimbursable price for a list of generically similar medicines with a cost lower than that of the original medicine. There may be instances where a generic alternative costs more than the set MRP. If you opt to use the original medicine and a generic alternative is available, or you use a medicine that costs more than the MRP, you will have to pay the difference between the price of the chosen medicine and that of MRP.
