

## BESTMED MEDICINE FORMULARY FOR CDL-CHRONIC (CHRONIC DISEASE LIST) CONDITIONS

- Benefits are subject to the following:
  - ✓ Pre-authorisation
  - ✓ Bestmed guidelines
  - ✓ Bestmed protocols
    - Below medicines are first line treatment. Second line medicines not listed, would be considered if clinical funding criteria is met as per protocol – without penalties.
  - ✓ Mediscor Reference Price (MRP)

This price represents the reasonable price in the market place for a particular group of generic equivalent medicines which is reviewed and updated regularly. MRP sets a maximum reimbursable price for a list of generically similar medicines with a cost lower than that of the original medicine. There may be instances where a generic alternative costs more than the set MRP. If you opt to use the original medicine and a generic alternative is available, or you use a medicine that costs more than the MRP, you will have to pay the difference between the price of the chosen medicine and that of MRP.
- This formulary is effective from 1 January 2026.
- This formulary is subject to change without notice.
- **ONLY the following medicine classes will be considered for Beat1, Beat2 and Rhythm1:**
  - ✓ Intermediate Acting Insulins
  - ✓ Long-Acting Insulins
  - ✓ Short Acting Insulins
  - ✓ Glucose Meter Strips
  - ✓ Glucose Meter Lancets
  - ✓ Glucose Meter Needles

**YES** = formulary

**NO** = non-formulary with co-payment (CO-PAY)

**NO BENEFIT** = excluded\*

\*Possible funding without penalty, if first and second line treatment failed.
