CONTRACEPTIVE LIST

Contraceptives

Contraceptives are available for female beneficiaries between the age of 12 and 55 years on all Bestmed options. The quantity and frequency depend on the product up to the maximum allowed amount.

Benefits are subject to the following:

- The MediKredit Reference Price (MMAP) is a reference pricing model applicable to all medicines with generic equivalents or biosimilars. MMAP sets the maximum reimbursable price for a list of generically similar or biosimilar products with a cost lower than that of the original medicine. This means that if you opt to use a medicine that is more expensive than the MMAP, you will have to pay the difference between the price of the chosen medicine and that of MMAP.
- This list is subject to change without notice.
