Bestmed maternity supplement formulary

- The MediKredit Reference Price (MMAP) is a reference pricing model applicable to all medicines with generic equivalents or biosimilars. MMAP sets the maximum reimbursable price for a list of generically similar or biosimilar products with a cost lower than that of the original medicine. This means that if you opt to use a medicine that is more expensive than the MMAP, you will have to pay the difference between the price of the chosen medicine and that of MMAP.
- This formulary is applicable to Beat2, Beat3, Beat4, Pace1, Pace2, Pace3, Pace4 and Rhythm2.
- This is limited to a maximum of R151 per claim, per month for a maximum of 9 months.
- Registration on the Bestmed Maternity Care programme is required to gain access to this benefit.
- This formulary is subject to change without notice.
