

BESTMED MEDICINE FORMULARY FOR PRESCRIBED MINIMUM BENEFITS (PMB) CONDITIONS

- Benefits are subject to the following:
 - ✓ Pre-authorisation
 - ✓ Bestmed guidelines
 - ✓ Bestmed protocols
 - Below medicines are first line treatment. Second line medicines not listed, would be considered if clinical funding criteria is met as per protocol – without penalties.
 - ✓ MediKredit Reference Price (MMAP)

This is a reference pricing model applicable to all medicines with generic equivalents or biosimilars. MMAP sets the maximum reimbursable price for a list of generically similar or biosimilar products with a cost lower than that of the original medicine. This means that if you opt to use a medicine that is more expensive than the MMAP, you will have to pay the difference between the price of the chosen medicine and that of MMAP.
