

The Chronic Disease List (CDL) provides cover for the 26 listed chronic conditions for which medical schemes must cover the diagnosis, medical management and medicines as published by the Council for Medical Schemes. An additional 16 conditions are covered as Prescribed Minimum Benefits (PMB), where the medical management and medicines are also covered from Scheme benefits. Non-CDL chronic conditions are those additional conditions that Bestmed provides chronic medicine cover for. Authorisation for CDL, PMB and non-CDL chronic medicines is subject to clinical funding guidelines and protocols, formularies and Designated Service Providers (DSPs) where applicable. Approved CDL and PMB chronic medicines are covered without an annual financial limit while non-CDL chronic medicines are subject to an annual financial limit. Below is the list of CDL, PMB and non-CDL conditions that Bestmed covers on the various benefit options.
