

**Contraceptive
list
2021**

CONTRACEPTIVES

All females of child-bearing age qualify for female contraceptives. (12 years and older)

Benefits are subject to the following:

- Mediscor Reference Price (MRP)

This price represents the reasonable price in the market for a particular group of generic equivalent medicines which is reviewed and updated regularly. MRP sets a maximum reimbursable price for a list of generically similar medicines with a cost lower than that of the original medicine. There may be instances where a generic alternative costs more than the set MRP. If you opt to use the original medicine and a generic alternative is available, or you use a medicine that costs more than the MRP, you will have to pay the difference between the price of the chosen medicine and that of MRP.

- This list is subject to change without notice.
- This benefit is available on all Bestmed options.
- There is an annual limit per beneficiary per year.
